

spirocloud®

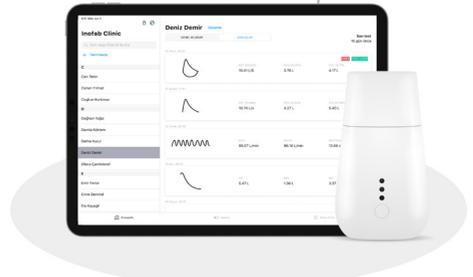

Remote Respiratory Disease Management System

spirocloud

spirohome | Personal

spiroclinic | Compact

Remote. Integrated. Synced.

SpiroCloud® is a web-based platform that collects and displays data from SpiroHome® Personal and SpiroClinic® Compact spirometers.

Healthcare professionals can use the SpiroCloud® Web Platform to view results on a patient's SpiroHome® Personal device whenever they want and wherever the patient is.

Track the home spirometry remotely

Patients can perform a Pulmonary Function Test with clinical accuracy at home and healthcare professionals can continuously monitor their results with SpiroCloud®.

-  Clinical accuracy at home
-  Unlimited number of tests
-  Continuous intervention

SpiroClinic® Compact Integration

SpiroCloud®; a cloud-based software enabling centralized patient monitoring for doctors after using the SpiroClinic® Compact device.

Compare home and clinic results

A centralized database

Unlimited number of patients and data
